SUMMARY

I am a motivated and results-oriented professional seeking a company where I can leverage my expertise and qualifications to propel them toward achieving and exceeding their goals.

WORK EXPERIENCE

CONTROL PANEL AUTOMATION, SV WORKS

- Completed Internship Training on Power Loom Control Panel, at Sv works,k.s.n.puram, Palladam - 641 662. From 25th August to 11th September 2022.
-

EDUCATION

M.Sc. Applied Electronics - 84% PSG COLLEGE OF ARTS AND SCIENCE, COIMBATORE	Jul, 2022 - May, 2024
B.Sc. Electronics - 75% PSG COLLEGE OF ARTS AND SCIENCE, COIMBATORE	Jul, 2019 - May, 2022
HSC – 87.3% SLNM HIGHER SECONDARY SCHOOL , KARADIVAVI	Jul, 2018 - May , 2019
SSLC – 93.4% SLNM HIGHER SECONDARY SCHOOL , KARADIVAVI	Jul, 2016 - May , 2017

PROJECT

Three Phase Fault And Street Light Fault Detection Using IOT

Developed an IoT-based system for real-time detection of three-phase power faults and street light failures. Utilized sensors to monitor electrical parameters and lighting status, with automated alerts for quick maintenance. Enhanced infrastructure reliability and efficiency by providing timely fault detection and actionable insights.

ADDITIONAL INFORMATION

Technical skills:

- Embedded System Design with Firmware Development Using C
- Hardware interfaces such as LCDs,7-segment displays, RTC, ADCs.
- Firmware Development using C for PIC microcontroller, Arduino, MPLAB XC8
- Communication Protocol -UART, I2C, SPI.
- C Programming.

Certifications:

- Completed Course in Embedded System Provided by Argyn Technologies during(July-October2023)
- Completed Course in Python Provided by COURSERA during(June 2023)

Achievement:

- Elected as representative of the class.
- Team lead of hackathon project.
- Underwent ZONAL LEVEL GAMES & SPORTS COMPETITION in Handball and got the Runnerup position.
